

DENNIS BRINKER

SENIOR FRONT- END DEVELOPER

314.606.0556

dennisbrinker.code@gmail.com

dennisbrinker.com

St. Louis, MO

PROFESSIONAL SKILLS

Language and Frameworks

HTML, CSS, Sass, JavaScript, TypeScript

Animation and Interactivity

GreenSock (GSAP), ScrollTrigger, SVG, CSS

Design and Collaboration

UX/UI Design, Figma, UI Wireframing, Adobe Creative Suite, Articulate 360, Microsoft 365

Version Control and Tooling

GitHub, Azure DevOps, AWS

Accessibility, Performance & Localization

WCAG Accessibility, Performance Optimization, Cross-Browser Development, Responsive Design, Localization & Translation

PROFESSIONAL SUMMARY

Senior Front-End Developer with 10+ years of experience designing and building interactive, web-based digital experiences at scale. Strong background in front-end architecture, interaction design, animation, UX/UI, and e-learning development, with a focus on engaging experiences and reliable, maintainable code. Skilled in developing reusable systems, solving complex technical challenges, and integrating AI tools into development workflows to improve efficiency and impact.

WORK EXPERIENCE

Senior Interactive Developer

Integrity Web Consulting (formerly Motivation Technologies) | 2019 — 2026

- Built interactive, web-based training courses for Fortune 500 clients including Intel and Seagate, translating complex technical concepts into engaging experiences for hundreds of thousands of global users.
- Developed and maintained a reusable, customizable front-end template system that enabled the team to build and ship complex courses in under a week.
- Maintained and updated shared runtime code supporting both modern and legacy content, implementing global changes that safely propagated across hundreds of live courses.
- Ensured consistent experiences across modern browsers and devices through responsive development, performance optimization, and localization support spanning 20+ languages.
- Partnered closely with designers to translate creative concepts into responsive layouts, user-driven interactions, and animation-driven storytelling experiences.
- Collaborated with back-end developers to maximize functionality and integration between e-learning content, websites, and applications.
- Integrated AI tools into development workflows for rapid prototyping, architecture planning, code generation, debugging, and refactoring, accelerating development and problem-solving.
- Onboarded, mentored, and trained interactive developers while helping establish consistent development practices and workflows.
- Created and maintained system and process documentation to support consistent development and knowledge sharing across the team.

Interactive Developer

Motivation Technologies | 2017 — 2019

- Collaborated with designers, developers, and account teams to translate project requirements into cohesive, data-driven digital experiences.
- Developed responsive, multilingual e-learning and training content optimized for consistent performance across screen sizes, browsers, environments, and devices.

Content Manager

Motivation Technologies | 2015 — 2017

- Managed editorial calendars and content pipelines across multiple client accounts, coordinating deliverables and maintaining on-time production in a fast-paced agency environment.
- Produced and edited a variety of digital content, including monthly website refreshes, promotional landing pages, and email campaigns.
- Worked within learning management systems (LMS) to support the delivery and management of client content.
